Oregon a State!
The most important act of the present Congress is the admission of Oregon as a State into the Union—being the thirty-third. On Saturday week, the House passed the bill as it came from the Senate, by a vote of 114 yeas, to 103 nays—nearly all the Democrats voting for it, and the Opposition, with a few exceptions, against it. Mr. Kunkel, of the Dauphin district, was the only member of the Opposition from Pennsylvania who voted in the affirmative. The leading principle of the measure seems no longer to be, "No more Slave States," but "No more Free Democratic States!"

The following, from the Philadelphia Argus, though severe, are just strictures, upon the bare-faced and shameless hypocrisy of the Know Nothings and Black Republicans, as exhibited in their course upon the Oregon question:

Who are the Friends of "Freedom?"
—The "freedom" shriekers in Congress have demonstrated their hypocrisy lately in the most glaring manner. The vote of the Black Republicans and their anti-American allies of the Know-Nothing party, upon the Oregon question, shows in the clearest possible light the hollowness and insincerity of their long-vaunted professions of friendship for "freedom" and "popular sovereignty." Oregon is a free State and there is not the remotest possibility that it will ever be changed in that respect. The Constitution is republican in form, there is more than the requisite population, and the only possible excuse these croakers in Congress can have had for voting against her admission as a State, are, that niggers are not recognized as the equals of an infinitely superior race, and there is there an overwhelming Democratic majority; so these "traitors to freedom," these "dough-faces of the first water," voted almost to a man against the bill. They were entirely willing to place their names upon the Congressional record as enemies to the admission of any more "free" States with Democratic proclivities. Only fifteen Republican members voted in favor of "freedom" and seventy-three voted against it. We hope this fact will be carefully remembered.

The leading negro advocate in the United States, the New York Tribune, openly justifies the vote given by these "freedom" champions. That paper says: "We hold that the great body of the Republicans voted just right on this question, and of course that the fifteen who separated from, opposed and defeated them, did a grievous wrong."

So, then, it is "a grievous wrong" to vote for the admission of a "free State" into this glorious confederacy, in the judgment of the sectional fanatics who judge the columns of that unscrupulous and malignant partisan paper. The New York Times makes the following admission:

"Oregon is a free State—her Constitution prohibiting slavery—and she will unquestionably always remain so." Yet the Times opposes her admission, as well as its Black Republican rival, the Tribune. Oregon is a Democratic State, and is likely to remain so; white men are there acknowledged to be superior to negroes—which are quite sufficient reasons for the hypocritical Abolitionists objecting to her being allowed to enter the great family of republican sovereigns.

The Black Republican journals admit that the votes of the two Senators from Oregon settle the political complexion of the United States Senate for the next six years. It will be Democratic beyond all peradventure. The admission of Oregon will give us three more votes at the next Presidential election. To be sure, they will not be needed, but they will be not less welcome on that account.

Our readers will not fail to bear in mind how faithful to the cause of "freedom" the Republicans in Congress have shown themselves to be.

WASHINGTON, Feb. 13.—The admission of Oregon into the Union was celebrated last night by a large concourse of citizens, who with the full Marine Band, serenaded the distinguished friends of the measure, including General Lane, Senator Green, Representatives Nichols, Scott, Stephens, Letcher, Thayer, Comins, Stevenson, and Orr, nearly all of whom delivered brief speeches eulogistic of the political event. The President was also serenaded, and in response to repeated calls, appeared at the window of the White House. He sincerely congratulated them upon the advent of another sovereign State into the glorious confederacy of Republics—a State too, situated on the very shores of the Pacific, favored with a fine climate, an exuberant soil, and filled with tried and noble Democrats. The elevation of Gen. Lane, who proved himself a gallant soldier in war and a true statesman in peace, was also a fit subject for rejoicing. It was an honor he had fairly deserved by his exertions to bring this new State into the Union. Expansion was in future the policy of our country. Towards alone feared and opposed it. Thinking them for the hour paid him, the President concluded by calling for Yankee Doodle, which was performed by the band.

Vice-President Breckinridge in another part of the city, declared that whenever he could, he had given the bill a push, and expected next Monday to swear in both Senators. Having been called upon to say something about Cuba, he remarked that we talked too much and did too little. When England wished to do a thing she did it and talked about it afterwards. If the Island of Cuba, instead of being placed at the mouth of the Gulf of Mexico, laid at the opening of the British Channel, England would have taken it in ten days. He would not forbear, but act with any portion of his fellow citizens in using all honorable means to acquire it.

Why is it that we have not heard during the present session, from Seward, Giddings, Chase, and the other leaders of the Opposition, on the subject of the bill? For the simple reason that they do not desire to aid in the passage of a law that will relieve the treasury and afford protection to our interests. Their desire is to have no action on the subject, so that they may have it for a hobby in 1860.

An Unjust Sentence.
On Tuesday last, Judge PRABSON pronounced the sentence of the law against CONNELLIS M. DONOVAN, found guilty at the late Quarter Sessions of Dauphin county, of an assault and battery upon the person of JOSEPH M. CHURCH, a member of the House of Representatives of Pennsylvania from the city of Philadelphia. The sentence was, that Mr. Donovan should pay a fine of two hundred dollars, the costs of prosecution, give one thousand dollars bail for his good behavior, and undergo an imprisonment in the county jail for the term of three months. The action of the Court in this matter was most extraordinary; and we do not hesitate to express our condemnation of the severity of the sentence. The facts of the case, as given by a letter writer to one of the Philadelphia papers, are simply these:—Mr. Donovan was defeated by Church for a seat in the Legislature, and came to Harrisburg intending to contest Church's election. In doing so, a petition was presented to the House in Donovan's behalf, alleging the informality of Church's election. The latter took the opportunity of making a grossly personal and unjustifiable assault upon Donovan, whose mouth was closed, and who had no opportunity of replying. For this cause Donovan, meeting Church a short time after on the street, struck him over the head with a cane; but before any material injury was inflicted, the combatants were separated by the bystanders. Mr. Church resorted to the law, and the result is seen in Donovan's conviction and sentence. It is unnecessarily and unjustifiably severe. Mr. Donovan may have deserved punishment for committing this assault, but the fact that the person assailed was a member of the Legislature, is no reason why his punishment should be severe; on the contrary, members of the Legislature, from their very privileges, should not be shielded from personal responsibility, when these privileges are used to cloak personal malignity. This case in no particular differs from any ordinary case of assault and battery, and the sentence was evidently seasoned with a large portion of the gall of partisan bitterness. Mr. Donovan's case is one that calls for the interposition of Executive clemency; not because Donovan is a Democrat, but because the offence and the sentence are entirely out of due proportion.

Since the above was written, we learn that Governor Packer, last evening, pardoned Donovan, unconditionally.—York Gazette.

Local Affairs.
New Arrangement.
It will be seen, on reference to our advertising columns, that the hours for starting and arrival of trains on the Gettysburg Railroad have been changed somewhat. The new arrangement will require the passengers for Baltimore to tarry at the Junction a few hours, but this, it is confidently expected, will continue but a short while,—until a spring arrangement on the Northern Central shall allow more time at noon to make the run to Gettysburg and back to that point. Whilst the passengers for Baltimore are slightly inconvenienced by the new time-table, it affords an opportunity to people in our county to come up to Gettysburg and remain here an hour, which will give them ample time to attend to business with the Bank, Merchants, &c., and return again the same evening. It is only the passengers to Baltimore who are delayed on the way—none other.

New Machinery.
The Gettysburg Railroad Company having resolved to purchase two first class engines for the running of their Road, additional Bonds will be sold to liquidate the indebtedness which will thus be incurred. That these Bonds are among the most desirable securities now offered—being entirely safe, and yielding about 7½ per cent. per annum—we need hardly repeat. The business already done upon the Road is more than a sufficient guarantee for that. Persons who have money to invest could not do better than to put it into these Bonds.

The quantity of Marketing carried over the Railroad, from this place to Baltimore, is steadily on the increase. One large car is now filled with this kind of produce every Tuesday, and we doubt not that before many weeks another will be required—and when so required, it will promptly be put on. There need be no fear of disappointment for want of car room in this respect.

Narrow Escape.
JOHN GROSSMAN, the fireman on the Littleton Railroad, on Friday morning week, fell from the Locomotive while running at a rapid rate of speed, and made a narrow escape from a horrible death. Too much caution cannot be exercised in the running of Railroads.

Church Dedication.
The United Brethren Church at Hampton was consecrated to the service of Almighty God, on Sunday, the 20th ult., the congregation being quite large on the occasion. Rev. Mr. SMITH, of York, preached an appropriate sermon.

Church Bell.
The Bell of the German Reformed Church, in this place, re-cast at the Foundry of Messrs. REESTER & WENN, Baltimore, was received by Railway on Friday last, and that afternoon raised to its place in the cupola. The new Bell is very clear in tone, and of increased volume of sound. Provided with all the latest improvements, but half the usual weight to ring it is required. The old Bell was cast in London in 1822. Its present weight is 612 pounds, having lost in re-casting 29 pounds.

The Bell was hoisted with very little trouble—thanks to the good management and assistance of Mr. J. R. TURNER, the contractor for the new Court-house, and Mr. JOHN HILBERT, his foreman. With the derick and fixtures used about the Court-house, the raising of the Bell was a work of short duration.

Property Sold.
WM. KING, Esq., has disposed of his dwelling on York street, adjoining St. James' Church, to the Vestry of that Church, for a Parsonage, for \$2,200 cash.

Mr. JACOB ACHENBACH has sold his property on Carlisle street, near the Depot, to Mr. JOSEPH WILKE, for about \$1,700 cash.

Mr. WAYBRIGHT ZIEGLER has sold his property on York street, to Mr. NICHOLAS COBURN, Sr., for \$3,000.

Incendiary.
On Saturday night, between 1 and 2 o'clock, a small log barn, in McSherry's town, belonging to the estate of Henry Reilly, Esq., deceased, was fired by incendiaries, and totally consumed, with its contents, consisting of a quantity of hay, &c.

Enterprising Farmer.
Mr. ROSE, an enterprising farmer near this place, received from Chester county, by Railroad, on Friday last, a very handsome young animal of the Devon breed, with a view to improve his stock. Our county, noted for its excellent grazing qualities, should have as good stock as can be found in the country, and we hope that the example set by Mr. ROSE will be imitated until the most choice shall be had among us.

Beneficial Sign.
Mr. J. M. AUSTIN, York Pa., gets up a most beautiful Office and Store Sign, for indoors—a specimen of which can be seen at our office. His signs have been awarded highly complimentary premiums at a number of Agricultural and Mechanical Exhibitions, where the works of many other prominent in the art were exhibited. His work, whilst creditable in style, is of a very durable character, being made of the most choice materials.

He is not only prepared to sell and make signs to order, but will communicate the art. Address J. M. AUSTIN, Adams' Express Office, York Pa.

Attention is directed to the advertisement of Messrs. COVEX & KERN, in another column. Their place of business is on the Railroad, and they have opened with a large and choice stock of Liquors, which they intend to sell, wholesale and retail, at low profits.

Adams County Teachers' Institute.
Pursuant to a notice issued some weeks since by the County Supt. J. K. McIlhenny, to the Teachers, Directors, and all the friends of Common School education, a goodly number convened at the Public School House in this borough, on Thursday, the 10th inst. From the most impressive and interesting remarks, it was feared that but few from remote parts of the county would be here, but at eleven o'clock a sufficient number had assembled to effect an organization, with J. K. McIlhenny Secretary, and M. S. Converse, as temporary Chairman and M. S. Converse, as Secretary. The meeting was held on the morning session, but the appointment of the following committees, viz: A committee to report permanent officers. To draft a constitution. To report business for the afternoon session. The meeting then took a recess till after dinner. After the Institute had again assembled the business committee presented their report. The Co. Supt. then occupied the attention of the Institute for some time in a very profitable and interesting manner by stating the object of the meeting.

A. L. Lytle, chairman of the committee, reported a constitution which was adopted. The following officers were then elected for the ensuing year: President, J. C. ELLIS; V. Pres., J. L. HILL; Secretaries, C. ROBINSON, M. S. CONVERSE; Treasurer, H. J. ECKENRODE; A. L. Lytle, G. W. HILLMAN. The subject of Orthography was then taken up. R. A. Lytle illustrated his method of teaching the alphabet and orthography by the use of charts. He was followed by M. S. Converse on teaching to read from sight, instead of learning to sound words. J. K. McIlhenny followed with some remarks on the same subject. The following preamble and resolutions were then offered by J. K. McIlhenny, and were unanimously adopted:

Whereas, a number of Directors have not yet complied with the 25th Section of the General School Law, which requires that a form series of text books to be adopted and introduced, and as it is desirable to have the same series in as many Districts as possible, therefore

Resolved, That this Institute appoint a committee consisting of one teacher from each District, in which there is no uniformity of text books, which committee shall meet with a similar committee composed of one member from each board of directors, and adopt a series of text books, which series shall be introduced into all the schools of said districts at the opening of the next term.

Resolved, That the directors of each of the School Districts be requested to appoint one of their number who shall meet with the committee of teachers, appointed by the Institute, on Tuesday, the 10th of April next, in this place, for the purpose of adopting the same.

The Institute assembled again at 7 o'clock, P. M. There was quite a large audience in attendance. The subject of Written Arithmetic was then taken up and discussed at length by M. S. Converse. He was followed by Messrs. HILBERT and McILHENNY. The further discussion of this subject was then postponed until the next day.

At an early hour the Institute convened, and the subject of Written Arithmetic was further discussed by Messrs. ELLIS, McILHENNY, and Converse. The subject of Reading was then taken up. R. A. Lytle called out a class of Teachers and illustrated in an amusing manner reading as it was. He was followed by M. S. Converse with a class of young ladies exhibiting reading as it is. R. A. Lytle then illustrated his method of teaching the sounds of letters by the use of the Elocutionary Chart. After some further consideration of the subject, it was postponed. During the morning the Institute received quite a large accession of teachers from all parts of the county. Over sixty answered to their names as well as to their surnames.

The afternoon session was opened with prayer by Rev. McILHENNY. There was a very large audience in attendance, every seat in the capacious hall being crowded. J. K. McIlhenny being introduced, entertained the audience nearly an hour with an able and well delivered address. The subject of Mental Arithmetic was next introduced, and was discussed by Messrs. Pfeiffer and Converse.

At the suggestion of some of the members of the Young Men's Christian Association, the Institute concluded to adjourn to the Littleton Church, immediately after the address of Rev. Mr. Keiser. At the close of Rev. Mr. Keiser's lecture, Dr. J. H. Marsden occupied the attention of those present for nearly an hour, in an able and masterly address, on Heating and Ventilating School Rooms.

The Institute convened at 9 o'clock. Prayer by Rev. G. P. Van Wrek. The Institute was then highly entertained by musical music, by Prof. Harry, and his choir, to whom the thanks of the Institute were tendered. R. A. Lytle and W. S. Converse, members of the committee to draft resolutions expressing the sense of the meeting, made the following report:

Resolved, That the establishment of Teachers' Institutes is the most effectual aid in preparing the teacher for the competent, efficient and energetic discharge of the duties of his high and noble office, and that an imperative demand is in elevating the Common School system to that standard of excellence to which it is rapidly attaining.

Resolved, That we highly appreciate the intelligence and qualifications, exhibited by the female sex, as members of our profession, and we believe that their education, compensation, and therefore when they do the work of a male, that they should receive the same amount of salary.

Resolved, That we are in favor of the use of the Bible in our Common Schools, not as an ordinary text book, but as a text book to be used for a higher and nobler purpose, i.e. as a standard of certain great moral and religious principles, in which all Christian denominations agree, to be read from daily by the teacher or advanced pupils, without note or comment.

Resolved, That in the government of a school, the teacher failing to obtain order, by mild and persuasive means, should resort to corporal punishment.

Resolved, That we recommend to the Directors of each school district, that they establish a series of uniform text books and School Registers.

Resolved. That a synopsis of this meeting be forwarded for publication in the county papers.

Resolved. That the thanks of the Association be due to the Board of Directors of Gettysburg, for the use of the School House, and the citizens generally for their kind attendance and attention during the Session.

The above resolutions were passed with very little dissent, and except the fourth, which was discussed very fully by Messrs. Lytle, McIlhenny, Cart, Riegle, H. H. Orner, S. Orner, Kittinger, Minnigh and Hagerman.

The subject of Geography was then taken up, and discussed briefly by Messrs. Cart, Riegle, and Converse. Prof. Harry and R. A. Lytle illustrated their methods of teaching it with the use of Outline Maps. The Institute took a recess till 1 o'clock in the afternoon. The subject of English Grammar was discussed briefly by Messrs. Riegle, Cart, Kittinger and others. Mr. Converse pointed out a number of errors in the English grammatical language in the school-room. After which the most proper method of instructing the use of the Elocutionary Chart was considered by J. K. McIlhenny. There were present at the Institute about seventy teachers, besides a number of directors, from all parts of the county. Their business before the Institute, on motion they adjourned.

Railroad from Chambersburg.
The Chambersburg Independent, of Saturday week, has the following remarks in regard to the proposed Railroad from that place to Gettysburg:

"A 'big talk' is getting up about a railroad to Baltimore, by way of Gettysburg. The interests of all agricultural districts demand the shortest and cheapest way to a market. Franklin county produces as much marketing as any other county of equal size in the State; and it is a matter of course that it is wanted to place our farmers in a position to do without the aid of second parties. A direct road to Baltimore would enable our farmers to send their produce down themselves, and gain the whole of the profit. It would be more profitable to send to Baltimore, because the difference in freight would be a profit itself. As a general thing the prices paid in Baltimore for produce are equal to Philadelphia; at any rate the difference is not equal to the difference in freight. Our voice is for a railroad, by which we are under no obligations to Philadelphia, let us send our produce to that market which we can reach the quickest and cheapest. We hope the merchants in Baltimore will take hold of this enterprise and put it through—the trade of Franklin county is worth the effort."

No Lecture will be delivered before the Young Men's Christian Association this week—but there will be the week following, on Friday evening, as usual.

Prof. Jacobs lectured on Friday evening last, in Christ Church, on Botany.

Diell's large Grist Mill, lately rebuilt, near New Oxford, is so far finished as to allow chipping to be done, and before long flour will be made. The building is three stories high, (the two lower stone and the upper brick), and makes an imposing appearance.

The "Blues" parade here to-morrow morning, (the 22d.), and make an excursion to Hanover in the afternoon.

The Myriad-Handed Man;
On the Miracles of Enterprise and Mercy.—Familiarity, they tell us, is the mother of contempt. Things that we see and handle every day, lose all distinctive value in our eyes. The very air we breathe is an unrecognised blessing, though, if deprived of it for the twentieth fraction of an hour, the world would cease to live! In like manner we have all of us—no matter of what race or country—been so long accustomed to see the name of THOMAS HOWLAND at the head of a medical advertisement that we begin to look upon it as one of the essential components of a newspaper, and cease to enquire into the true significance of this universal fame.

Let not our readers fancy that this paragraph is a puff, at the bottom of which they will find a "pull" for the "Universal Howland," with the fame of which Professor Howland is associated. It is no such thing. We would say much of the Pills and Ointment, but at present our design is merely to call attention to the biography of a man whose achievements will hereafter be regarded as the surpassing wonder of the nineteenth century.

There are few varieties of the human race unrepresented in the population of this cosmopolitan city. Coolies from China—Malays from the Eastern Archipelago—Raskins from Africa—Whalemen from Greenland and the regions of the Arctic—half-breed half-breeds from Brazil and the other states of South America—Borneans, Tasmanians, Arabs, Hindoos, Armenians, New Zealanders and Kafirs—these, with the millions from all parts of Europe, make up the motley immigration which our world-embracing commerce throws upon our shores. It is no such thing, but we have never heard any one of the great names which we have named to regard with reverence; the name of Washington cannot thrill their sluggish blood; of Napoleon Bonaparte, his conquests and his fall, they are utterly ignorant. But hand them a newspaper and see how rapidly their faces brighten! They recognize its friendly promise—they rely on its long-tested truth; they rejoice and are, perhaps, astonished to know that the great physician, whose visit to their own country formed the epoch of a physical regeneration, has likewise been before them as a like cur and mercer to the land of their future adoption! They no longer feel that they are strangers; for Holloway, by his genius, his labors, adventures and worldwide travels, has established a connecting link between all tribes and races of the human family, and has thus been able to relieve the afflicted, and saving nothing that man can do, he has made the pilgrimage of the earth and established in every spot he visited not only depots for the sale of his medicines, but likewise journals in the native tongues. What a romance could be made from the life of a laborer, and adventures of such a life!—The Star.

The Star complains that the Bedford Gazette should find fault with the House at Harrisburg for allowing a seat to an Opposition contestant for a seat in that body, while it makes no mention of the fact that a Democratic contestant was also allowed a seat. The two cases differed. The position of the Democratic contestant had some ground on which to stand, while that of the Know Nothing was destitute of the merest shadow of foundation, and looked as though he could have had nothing in view but the drawing of the per diem during the investigation of the case. On that account he should have been refused a seat.

Bread without Yeast or Milk.
MRS. J. B. BROWN—Send you the following directions for making excellent, light, sweet bread, without yeast, milk, sugar, or soda—with nothing. In fact, save water and flour:
Take boiling water; let it stand until the temperature is reduced below the boiling point; then stir in flour as you can well beat it with a spoon. Set it in warm water kept at proper temperature, to promote fermentation, which will usually be completed in from three to four hours. If it should become thin after standing a while, stir in a tea-spoonful or two of flour, beating it occasionally until it commences to rise. When light, put it with the flour, mixing up with water and kneading thoroughly; then make into loaves, and put on tin to rise, keeping warm, and bake as usual. After several years' experience in making bread according to the above directions, I prefer this method to any other with which I am acquainted. So says Elsie M. Emery, in the Country Gentleman.

"They Say" Punishable by Law.
A woman in Massachusetts, who was recently sued for slander, was defended on the ground that she only repeated without malice what was commonly reported. The Supreme Court justly decided that it was no defense, but that a slanderer who repeated a false and slanderous story, no matter how widely it had been circulated, did so at his peril. The origin of a slander cannot always be traced, and its power of mischief comes from its repetition.

Singular Will.—An inhabitant of Montclair, who died in 1822, left the following testament: "It is my will that any of my relations who shall presume to shed tears at my funeral shall be disinherited; he, on the other hand, who laughs the most heartily, shall be sole heir. I order that neither the church nor my house shall be hung with black cloth, but that on the day of my burial the house and church shall be decorated with flowers and green boughs. Instead of the tolling of bells, I will have drums, fiddles and fifes.—All the musicians of Montclair and its environs shall attend the funeral.—Fifty of them shall open the procession with hunting tunes, waltzes and mince." This singular will created the more surprise, as the deceased had always been denominated by his family the Misanthrope, on account of his gloomy and reserved character.

The End of the World to be this Year.
The Newark Journal says: Messrs. Abraham Flavel and J. Decker, Second Adventists, of this city, have issued a circular called "The Time Messengers," containing twenty-eight columns of arguments and figures to demonstrate that the second coming of Christ will be during the Passover of the present year. Mr. Flavel was an ardent Millenarian during the excitement of 1843, when the "big tent" was erected in the northern part of the city, and notwithstanding various disappointments in his calculations since concerning the second coming of the Messiah, he appears still to cling to his peculiar belief with remarkable tenacity. It is understood that in 1843, when the end of the world was "sure to take place," Mr. F. sacrificed some valuable real estate and a prosperous baking business.

He Didn't Read the Papers.—In the trial of the Deyan brothers recently in Michigan for murder, much difficulty was experienced in obtaining a jury free from prejudice. At last, after a large number had been rejected, a man from the back part of the country was called, who in response to the questions propounded, said that he did not take or read a paper, and had never heard of the murder. "This was too strong a case, and Mr. Terry one of the counsel for prosecution said: "We object to your sitting on the jury in this case; a man that don't take a paper, and never heard of this brutal murder, don't know enough to be a jurymen! We don't want you!"

Happy, if not Fair.—When we heard of Albert Pike's (supposed) decease, says the Montgomery Advertiser, we could not regret that Old Ned, or some other expert was not successful in the case of the Old Arkansas Gentleman, in his own son.
"They said him out and spread him out and laid him out for the burial."
And then, on account of their sorrow for his decease, opened the biggest kind of a game of Faro, right there in his own room.
But when he heard the rattling of the checks, he tore the table from his face, and, And bounded up and running out, "Hold on, Prindle, don't turn, I'll go twenty on the king and copper on the ace," Like a fine Arkansas gentleman, close to the Ghastly line."

A Stupendous Project.—We see it stated that the various Railroad Companies, whose roads terminate in Philadelphia, are making an effort to get out through the present session of our Legislature, incorporating a mammoth company, with a capital of some two or three millions of dollars, for the purpose of uniting all the roads running into and out of the city, by means of a subterranean passage under the streets. The project is certainly a grand one, and will doubtless be carried through, as the gentlemen who are moving in the matter, are men of energy in railroad affairs.

The Fashions.—From a description of the latest Paris fashions, we clip the following:
"We have seen some beautiful evening costumes, one of which was of blue tulle; the skirt is without any trimming, but very full; the low-necked bodice is open at the waist; the waist is followed out and forms a brace, which are fastened on the shoulders; the front piece is composed of a body of plaited muslin, with sleeves of the same, bordered with tulle velvet, and they are covered with voluminous white tulle points."
Open to the waist! The above, to us, is a very curious phrase, may be considered a "fashionable" one.
A man was recently baptized in the creek at Pottsville, N. Y., while the thermometer stood 11 degrees below zero, and he remained wet in the open air for some time. He is now a confirmed case of rheumatism, and is equally a test of the power of a faith and his constitution.

ALL THINGS ARE READY.—The undersigned has the pleasure of announcing to his old country friends, farmers and merchants, as well as the citizens of Gettysburg, and the rest of mankind, that he has opened an immense Warehouse, and is now open, and that he is receiving, GRAY'S PRODUCE of all kinds, for which he is paying the highest market price; and while the public can dispose of their produce to the best advantage, they can be supplied in return with Groceries, of every description, consisting of Salt, Coffee, Sugar, Molasses, Tea, Rice, &c., also, Gunpowder, Oils, Candles, and other things not here mentioned. Wholesale, Retail and Commission as the cheapest in our motto. If the people consult their own interests, and act wisely, they will not forget the undersigned. Hoping the familiar faces of all my old customers will make me at ease, and with them many new ones, I shall endeavor to please them.
JOHN HOOKE.

THE subscriber is prepared to contract and put on at the shortest notice, W. K. Child & Co.'s Patent Fire and Water Proof Elastic Cement Roofing.
It is perfectly Fire and Water proof, and in point of durability is equal, if not superior, to any Metallic Roofing. It can be put on over tin, tar, iron, or shingle roofs, however flat or steep they may be.
In point of retaining the elements of fire and water, nothing has yet been discovered equal to the Elastic Cement.
The Elastic Cement is the best material that is the very perfection of Roofing, and that there is no further room for improvement. No one will now think of putting on shingles, when this Cement can be had for much less money and will outlast four shingle roofs. This Roofing is warranted as represented.

Howard Association.

PHILADELPHIA.—A Benevolent Institution established by Special Endowment for the Relief of the Sick and Distressed, afflicted with Virulent and Epidemic Diseases. In times of Epidemics it is the object of this Institution to establish Hospitals, to provide Nurses, Physicians, Clothing, Food, Medicines, &c., for the sick and destitute, to take charge of the orphans of deceased parents, and to minister in every possible way

to the relief of the afflicted and the health of the public at large. It is the duty of the Directors, at such times, to visit personally the infected districts, and to provide and execute means of relief. The physicians, not being members of the Association, usually enrol their names on its books, subject to be called upon to attend its hospitals, free of charge.

In the absence of Epidemics, the Directors have authorized the Consulting Surgeon to give advice and medical aid to persons suffering under CHRONIC DISEASES of a virulent character, arising from abuse of the physical powers, mal-treatment, the effects of drugs, &c., &c.

Various REPORTS and TRACTS on the nature and treatment of Chronic Diseases, by the Consulting Surgeon, have been published for gratuitous distribution, and will be sent FREE of CHARGE to the afflicted.

Address, for Reports or treatment, DR. GEORGE R. CALHOUN, Consulting Surgeon, Howard Association, No. 2 South Ninth Street, Philadelphia, Pa.

By order of the Directors,
EZRA D. HEARTWELL, Pres't.

Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effective alternative that can be made. It is a concentrated extract of Para-Sarsaparilla, so combined with other ingredients, that its greater alternative power is so adapted to afford an effective antidote for the disease Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one who will accomplish their cure must prove of immense service to the large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

ERYSIPELAS AND SCORFULOUS COMPLAINTS, Eruptions and Eruptions of the Skin, GOUT, PIMPLES, BLOOMERS, TENDERS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OF THE THROAT, DEBILITY, DYSPPEPSIA AND INDIGESTION, RHEUMATISM, ITCH OR ST. ANTHONY'S FIRE, and indeed the

This compound will be found a great promoter of health, when taken in the spring, to expel the four seasons' blood, and the impure blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, save themselves from the endurance of foul eruptions and ulcers on the face, which the system will strive to rid itself of corruption, and endeavor to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities battled through the skin in pimples, eruptions, or sores. It is when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the system pure, and you will be well; but with this population of life destroyed, and the

lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Science has been deceived, the reputation of accomplishing its ends. But the world has been egregiously deceived by preparations of it, partly because the drug does not hurt at all, and partly because for so many years it has been advertised for so many more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

For the last few years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they contained no Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla, which have been sold under the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to keep the name, because it is the name from the land of obloquy which rests

upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral,

has won for itself such a reputation for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to discuss the merits of this valuable remedy, which has been employed. As it has long been in constant use throughout this section, we need not do more than

it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Stronachs and Stomachic Disorders, Liver Complaint, Dropsy, Gravel, Hemorrhoids, Salt Rheum, Worms, Gout, Neuralgia, as a Daily Pill, and for Purifying the Blood.

They are anger-cool, so that the most sensitive can take them pleasantly, and they are the best purgative in the world for all the purposes of family use.

Price 25 cents per Box: 5 Boxes at \$1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent persons, are lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named for the United States of America, and for the Territories, are given; with also full descriptions of the above.

complaints, and the treatment, that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit from. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.
